To the DES team,

I wanted to take the opportunity to thank you for working with us at school in completely upgrading our lighting to LED.

We were very easily convinced of the long term benefits of making the change over through the DES service, utilising the interest-free energy loan. Long term, the thousands we will be saving each year will have huge impacts on the resourcing we can divert to student learning.

The process from start to finish was informative, smooth and hassle-free. We were well informed and supported with all of the paperwork. The contractor's communication was excellent and the install during the holidays was well planned and efficient. The high levels of communication, follow up visits and support have been outstanding.

The staff are amazed at the difference in the lighting quality, stability and uniformity. We are looking forward to seeing the energy savings in the coming months!

Regards,

Zac Taylor
