Dear James

I wanted to take this opportunity to thank you and endorse the benefits from the EECA Schools Energy Saving programme.

We found the process to be very easy. Michael Black came and explained the whole process to us of converting our existing lights to LED lighting, at no cost to us. After looking into the process, it was confirmed to us that we would qualify for an interest free loan.

The installation was a huge process but the contractors were lovely to deal with and all the old lights were disposed of properly, with no extra work for our staff. Now that the lights have been fully installed, the difference they have made has been remarkable throughout the school.

The monthly savings on reduced power consumption will pay off the EECA interest free loan in approximately 5 years. After the loan is repaid, it is all extra money that we can then put back into our school for our student needs.

All communication with Michael has been easy and our questions were answered promptly and efficiently.

Bucklands Beach Primary School is happy to recommend this programme to other schools and encourage them to take up this offer.

Kind regards

Kelly Slater-Brown
Principal
