

8th March 2022

To Whom It May Concern:

It is my pleasure to recommend the services of Direct Energy Solutions. In April of 2021 Direct Energy Solutions were contracted by Tauranga Boys' College to replace in excess of two thousand existing light fittings with new LED luminaires. From beginning to end the company was thorough, professional and true to their word.

The initial needs assessment conducted by Tim Watts was particularly precise and accurate. This was no mean feat considering the magnitude of the task. His open, honest and friendly manner made Tim an absolute pleasure to work with.

The product knowledge and attention to detail of Allen Wang was hugely appreciated. He went out of his way to provide the best possible solutions, at times upgrading to higher specifications at no additional cost to the school. Allen's willingness to make the trip from Auckland on several occasions highlights his dedication to his projects.

Our thanks also go to James Snowden and Elnaz Kiasar for their overall management of a very successful project and to the teams of electricians who worked hard during difficult times to deliver the final product. Their professionalism, combined with well-placed humour was certainly appreciated by our own property team.

Yours faithfully,

Wayne Merritt
Assistant Principal
